

# Scotsman DXN 107

## Ice and Water Dispenser

Unique in both its function and form, the Scotsman DXN 107 redefines the standard for commercial ice and water dispensers. Its modern design not only improves the aesthetics of your commercial space but also helps improve its effectiveness and reliability. With the capacity to dispense up to 1,200 glasses of water per day, this machine seamlessly combines style and functionality.

# Scotsman DXN 107

Scotsman DXN 107

The Scotsman DXN 107 is a powerhouse of efficiency and quality. Made with the user in mind, it produces cubelet ice with a slow melt rate, ideal for maintaining an iced drinks integrity in busy commercial spaces. Whether you want chilled water for morning hydration or an iced cold soft drink for that afternoon pick me up, the DXN 107 has got you covered.

#### HIGH QUALITY ICE

Made to a high quality, this machine produces cubelet shaped ice using compacted flake ice, well known for its slower melt rate, and guaranteeing long-lasting chilled beverages. Great for busy commercial spaces, this machine ensures your iced coffees and soft drinks stay chilled without dilution.

#### HYGIENIC STORAGE SOLUTION

The Scotsman DXN 107 comes fully equipped with a hygienic enclosed storage bin, capable of holding up to 5kg of ice. Due to the storage only being accessible during cleaning and/or servicing, this unique solution prevents contamination, ensuring your ice remains clean and fresh during daily use.

#### SLEEK AND EFFICIENT DESIGN

Designed for convenience, the DXN 107 can efficiently dispense ice for up to 100 people in a queue at a time. Its sleek, and modern design complements any commercial counter, blending seamlessly into your space for easy and regular access to water and ice.

#### EFFORTLESS MAINTENANCE

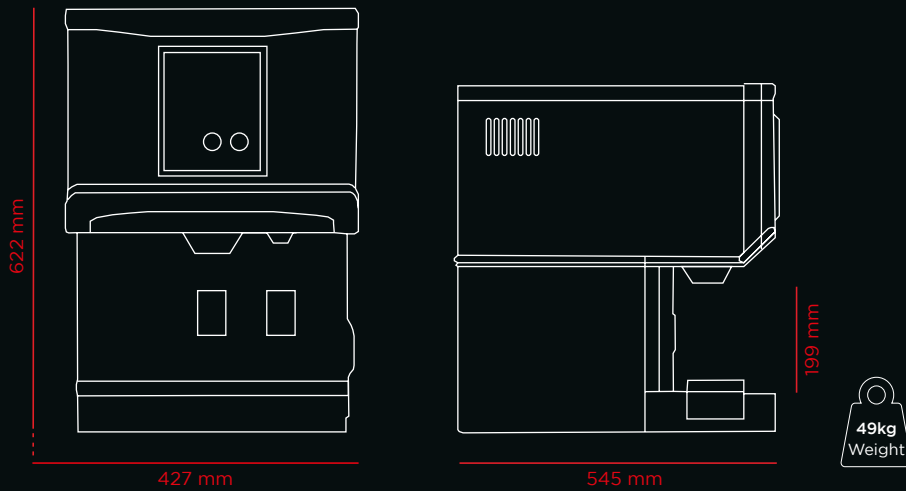

Featuring a fast and user-friendly regular cleaning mode, this machine also utilises its preprogrammed algorithm signaling to alert users of any errors, displaying these on the machine's modern touchpad. This facilitates timely preventative service checkups performed by our expert engineers.

“

This machine is a game changer; the ice and water quality is unmatched and really transforms an office coffee station thanks to its sleek design.”

# Technical Information

## Specification
