**S40**

*The perfect instrument  
for a perfect espresso*

e s p r e s s o c o f f

# **S40** | *The perfect instrument for a perfect espresso*

Behind the coffee bar counter, every second is precious, cup after cup. The coffee machine is the instrument which dictates the rhythm. It has to be technological, reliable, ergonomic. It has to be attractive, fit in with the furnishings, the shades of colour, the lights. It makes your work run smoothly. You have thus more time to think, to express your own creativity, to better fulfil the art of the barman.

In planning the new **S40**, La Spaziale top of the range, the technicians set themselves these goals. They observed gestures, pauses and work spaces to come up with the ergonomic aspects. Then, they dressed the elements of functionality with a high-class aesthetic, as elegance and practicality may blend in an excellent design. Inside the machine, they placed a technological heart, whose components interact with extreme precision, guided by avant-garde electronics.

An ample display with LCD graphics guarantees total interaction between the barman and the engineer responsible for maintenance, who in every single moment has full control of the machine. There is rapid and easy access to the technological heart of the **S40**. Accurately programmed control cycles allow to reduce maintenance time and ensure that the machine is kept in a state of maximum efficiency.

A personalised card gives access to the management programmes, making the **S40** unique and secure in every aspect. The updates of the software controlling the machine are extraordinarily simple. Energy consumption is limited, as after 20 minutes of inactivity the machine goes into "stand-by". But this is only the start of a journey.

The opportunities offered by digital technologies are constantly growing- and the **S40** is ready to seize them all.

espresso coffee machines

*Every espresso has to be a perfect work of art. La Spaziale provides the instrument for its creation. When perfection embodies a personal style which identifies the author, we can share their brilliance.*

*The excellence of an espresso involves a complete balance between contribution, use and control of the thermic and mechanical energies contained in each cup. This constant attention to the technological aspects is the priority of La Spaziale.*
