**WAVE**

## DESIGN INTENTION

To pause for a moment in the everyday rush, to relax and recharge, taking time to reflect on what you've experienced and to open yourself to what's yet to come. This is the rhythm that inspired us to design the WAVE.

This model is adapted to the young, modern lifestyle, its phases of fun-loving and action, acceleration and the need to retreat. All this is reflected in a striking wave design and in your option of selecting different colour variants.
